TO

VOLUME I.—MDCCCXXVII—VIII.

A

PAGE

Abercrombie, Dr., on Diseases of the Brain, review of 408
Abernethy, Mr., his first appearance after being "out of bond" 18
Abernethy's portrait—where is it?.. 510
——————— explanation respecting 528
Abscess of the cerebrum and cerebellum 687
——— of the cerebellum 438
——— chronic, of the testicle 14
——— in the fauces, case of, by Mr. Culverwell 927
——— mistaken for femoral hernia 199
——— lumbar, its contents in part discharged by the bronchi..... 493
——— psoas, singular case of 175
Abuses at St. Bartholomew's Hospital 271, 277, 767.
——— at St. Thomas's Hospital 480
——— at the Westminster Hospital 179, 257, 353, 883, 994
——— at the Winchester County Hospital 263
——— at the London Hospital .... ib.
Accoucheur, Dr. Blundell on the duties of the 417
Acid boracic..... 650
—— carbonic 615
—— hydro-cyanic, on the formation of 650
—— hypo-sulphurous..... 520
—— sulphurous ..... ib.
—— hypo-sulphuric ..... ib.
—— sulphuric ..... ib.
—— muriatic 740
—— muriatic, Professor Brande on 455
—— hydriodic..... 457
—— oxalic, poisoning by 447
——— lime, a test for 809
—— phosphorous..... 554
—— phosphoric ..... ib.
—— hypo-phosphorous..... ib.
—— hypo-phosphoric ..... ib.
—— prussic 665

PAGE

Acid, sulpho-cyanic..... 650
—— sulpho-naphthalic 649
Address to the readers of THE LANCET, on the commencement of a new volume..... 1
Advantages at the Westminster Hospital 926
After-floodings, remarks on..... 941
Affinity, chemical, Professor Brande on 82
Aggregation, Professor Brande on.. ib.
Ague, clinical lecture on, by Dr. Elliotson 139
Air, atmospheric..... 489
—— pump, construction of ..... ib.
—— foul, suffocation from, cases of 543
Alexander's, Dr., remarks on Dr. Ayre's case of diabetes..... 939
Alkalies obtained from cinchona bark 663
Alienation, mental, M. Mainers on.. 46
Aloes, modus operandi, and medical properties of..... 347
Amaurosis, with intermitting paraplegia 392
——— interesting case of..... 181
Amesbury, Mr., discussion on his fracture apparatus..... 925
——————— mode of treating fractures, discussion on..... 957
Ammonia, carbonate of..... 615
Ammoniacal gas 487
——— salts..... 488
Ammonia and its combinations with muriatic and nitric acids 486
——— muriate of 488
Anatomical and physiological remarks on the medulla oblongata.. 297
Anatomy, comparative, lectures on, at St. Thomas's Hospital, notice of 105
——— Richmond, school of, remarks on 905
Anatomical researches on the epithelium 556
Aneurism of the aorta, throat-cutting for..... 279
——— axillary, subclavian artery tied for 448

PAGE

Aneurism, axillary 857
——— axillary, death of patient 718
——— post-mortem examination in a case of..... 859
——— of the arteria innominata, Dr. Barry on Mr. Wardrop's case of 473
——— in which the subclavian artery was tied by Mr. Wardrop 408
——— Mr. Lambert on 894
——— strictures on Mr. Brodie's case of 791
——— dissection of a subject affected with 656
Aneurism, temporal 665
——— of the temporal arteries, Dr. M'Lachlan's case of 733
——— by anastomosis, ligature of the carotid, for..... 715
——— cases of..... 411
——— of the femoral artery..... ib.
——— of the femoral artery, operation for 831
——— of the popliteal artery 412
——— internal, discussion on, at the Westminster Medical Society 274, 310
——— general, observations on, by G. Breschet..... 218
Aneurismal disease of the temporal arteries, for which the carotid was tied..... 34, 47
Ancle-joint, scrofulous disease of the 413
Animals, observations on dissecting and preparing the bodies of..... 300
Ani, prolapsus, Dupuytren's and Langenbeck's mode of treating 461
Antrum, fungus of the 63
Anus and labia, syphilitic affection of the..... 264
Appendix cæci, destruction of..... 637
——— ulceration of 666
Apothecaries' Company, "regulations" of the..... 10
Arm, spontaneous gangrene of the.. 32
Arteria innominata, aneurism of.... 894
Arteries, on the Distribution of, by Dermott, review of 192
——— Harrison's work on the Surgical Anatomy of, review of .. ib.
——— temporal, Dr. M'Lachlan's case of aneurism of..... 733
Artery, axillary, ligatures of the .. 730
——— carotid, ligature of the..... 715
——— external iliac, tied by Mr. Morgan..... 411
——— ligature of .. 618
——— radial, wound of, near to the wrist 238
——— wound of..... 523
——— subclavian, ligature of..... 249
——— tied for axillary aneurism 448

PAGE

Artery, ulnar, wound of the 238
Arteries, wounds of, Mr. Green's clinical remarks on..... 365
——— wounds of, Dr. Simpson on 799
Arthritic iritis 826
Asphyxia 614
——— transfusion in 642
Asylums, lunatic, general view of, by Sir A. Halliday, review of..... 692
——— lunatic, for Middlesex, remarks on 140, 363, 589
Atomic theory, or chemical equivalents..... 128, 429
Attendance in cases of midwifery, by unqualified pupils 885
Attraction, Professor Brande on.... 81
——— mechanical, opposed to chemical 125
——— elective 127
Aurora borealis 294
Auscultation in pericarditis 188
Axillary aneurism 857
——— post-mortem examination in..... 859
Ayre, Dr., on diabetes mellitus 822

B

Balance, hydrostatic..... 682
Ballingall's, Dr., clinical lecture, Scotus on 89
——— lectures, strictures on, by Scotus 258
Barclay, Dr., lectures, by Ballingall, review of 726
Barilla 741
Bark, cinchona, alkalies obtained from 663
—— cinconine 663
—— quinine 663
Bartholomew's Hospital, abuses at, 271, 277, 767.
——— rumpus at 18, 19
——— throat cutting at 279
Barry, Dr., on Mr. Wardrop's case of aneurism of the arteria innominata 473
Bat, flight of a, from the Court of Common Pleas 467
—— remarks on a 601
Bats, evidence of 788
Bicarbonate of soda 741
Bile, electricity of the 810
Birds, bones of..... 586
—— stomach of 247
—— mechanism of the wings of.... 810
Birmingham petition to Parliament on the subject of dissections 945
Bladder, diseases of the..... 652
——— fungoid disease of 366
——— paralysis of the, strychnine in 864
——— stone in the..... 736
Bladder, swim, in fishes..... 432
Bleaching liquid 807

PAGE

"Blinkings" of the Middlesex owl 689
Blindness from worms in the eye.... 684
Blister, singular effect produced by 461
Blood, experiments on the electricity of the..... 809
——— remarkable appearances of the, with enlargement of the liver and spleen 908
——— spots of, in clothes, microscopic experiments on..... 134
Blundell, Dr., his introductory address to a course of lectures on the theory and practice of midwifery 5
——— on the pelvis, the child, and the softer parts ..... ib.
——— on the os coccygis..... 6
——— on the ligaments of the pelvis..... 7
——— on the joints of the pelvis ib.
——— on the symphysis pubis.. 9
——— on inflammation and suppuration of the symphysis pubis .. 33
——— on chronic inflammation and disorganisation of the symphysis pubis 34
——— on the treatment of relaxation of the symphysis pubis .. 35
——— on the sacro-iliac synchondrosis, inflammation, suppuration, and relaxation of 36
——— on the formation and use of the pelvis in relation to the practice of midwifery..... 37
——— on the standard pelvis .. 65
——— on the inferior aperture of the pelvis 66
——— on the cavity of the pelvis 67
——— on the arch of the pubis 68
——— on the incurvation of the pelvis..... ib.
——— on the distorted pelvis, varieties and causes of 68
——— on a new operation for producing premature labour in cases of distorted pelvis 70
——— on the contracted pelvis 113
——— on the small pelvis 115
——— on the large pelvis..... ib.
——— on the means of ascertaining the kinds of pelvis 117
——— on the comparison of the male and female pelvis..... 161
——— on the bearing of the pelvis, in relation to the spine ..... ib.
——— on the passage of the child through the pelvis 162, 281
——— on the retroversion of the uterus 162
——— on the standard head of the child 164
——— on deviations from the standard head..... ib.
——— causes of 165
——— on compression ..... ib.

PAGE

Blundell, Dr., on presentation and situation 166
——— on the various modes in which the child is transmitted through the pelvis 201
——— on the vertex presentation ib
——— on the face presentation 204
——— on forehead presentation ib.
——— on the foot, or crural presentation ..... ib.
——— on breech presentations 281
——— on transverse ditto 284
——— on the means of ascertaining the position of the child .. 285
——— on the spontaneous evolution of the child 284
——— on the arm presentation ib.
——— on the softer parts in connexion with the pelvis, and the effects on them by the passage of the child 320
——— gravid uterus.... ib.
——— bladder ..... ib.
——— ureters..... 330
——— rectum..... ib.
——— vagina..... ib.
——— external organs . ib.
——— blood vessels 331
——— absorbents and glands ..... ib.
——— nerves..... ib.
——— cellular web .... ib.
——— general observations on parturition 334
——— on some of the causes of incontinence of urine after delivery ib.
——— on delivery 360
——— on natural labour..... ib.
——— on the duties of the accoucheur 417
——— on tying the umbilical chord..... 421
——— on still-born children.... 423
——— on the birth and management of the secundines 448
——— on preternatural labours 481
——— foot or crural presentations..... ib.
——— breech presentations..... 484
——— mixed presentation..... 486
——— on extraordinary difficulties in preternatural presentations 513
——— transverse presentation..... 516
——— on turning 545
——— on easy and difficult cases of turning 547, 549
——— on flooding cases 577
——— treatment of 581
——— on the management of the more copious floodings 609, 611

PAGE

Blundell, Dr., on the application of cold in floodings 610
——— on transfusion, 614, 673, 644
——— on the after management of floodings 973
——— experiments on transfusion 678
——— on the method of performing transfusion 679
——— on the varieties of floodings 705
——— on the management of floodings in the earlier months 707
——— on the management of floodings in the latter months 801
——— of latter floodings, in which the placenta is not situated over the mouth of the womb .. 804
——— extirpation of the uterus by 820, 854
——— on after-floodings 865
——— treatment of .. 865
——— on retention of the placenta 868
——— on removal of the placenta 871
——— on laborious labour 898
——— on mortification from 900
Bodies, electrical, Prof. Brande on 215
——— electro-negative 246
——— positive..... ib.
——— phosphorescent 346
——— spontaneously phosphorescent ib.
Bone, reproduction of 935
Bones of birds 586
——— distortions of, discussion on.. 633
Borate of soda 742
Boron 650
Botanical notice..... 702
Bouillaud, Dr., on cancer of the stomach 9
Brain of the dolphin 86
—— chronic affections of, Dr. Elliotson's remarks on 526
—— concussion of 639
Brain, concussion of, discussion on 958
—— lesion of, with fracture 769
—— Morbid Anatomy of, by Dr. Monro, review of 819
—— Dr. Abercrombie on the 408
Brande, Professor, lectures of, on chemistry 76
——— introductory address.. ib.
——— on fermentation..... 80
——— on attraction 81
——— on gravitation ..... ib.
——— on inertia..... ib.
——— on aggregation 82
——— on chemical affinity .. ib.
——— on cohesion..... ib.
——— on crystallisation .... ib.
——— on the influence of light in the formation of crystals 83
——— on the theory of crystallisation..... 84

PAGE

Brande, Professor, on chemical attraction 125, 127-129
——— on specific gravity ... 127
——— on electric attraction.. ib.
——— on the atomic theory 128
——— on heat..... 129
——— on the influence of heat as a chemical agent in art and nature 129
——— on the various expansive powers of metals..... 130
——— on the expansion of fluids by heat ..... ib.
——— on the thermometer and nature of heat..... 166, 173
——— on heat..... 212
——— on electricity 214
——— on the electrometer .. 216
——— on electrical non-conductors ..... ib.
——— on electrical machines 217
——— on the phenomena of the Leyden jar, and on the modes of accumulating electricity by induction 241
——— on the generation of electricity by the contact of metals, and on the construction of the voltaic pile..... 244
——— on the difference between quantity and intensity of electricity..... 294
——— on the natural phenomena of electricity 294
——— magnetism, and excitation of, by electricity..... 296
——— on the simple supporters of combustion 375
——— oxygen ..... ib.
——— chlorine 378
——— and its combinations 425
——— oxide of 426
——— chloric acid..... 426
——— on iodine, tincture of 426
——— compounds of 427
——— on iodic acid ..... ib.
——— on fluorine ..... ib.
——— on simple inflammable substances..... 427
——— on hydrogen and the composition of water..... 428
——— on chemical equivalents 429
——— on muriatic acid..... 455
——— on hydriodic acid 457
——— on nitrous oxide..... 488
——— on the combinations of nitrogen with oxygen..... ib.
——— on nitrous and nitric oxides—nitro-muriatic acids .. 459-60
——— on ammonia, and its combination with the muriatic and nitric acids 486

PAGE

Brande, Prof., on the composition and properties of atmospheric air, and on the construction of the air-pump 489
——— on sulphur, and its combinations with oxygen 519
——— on the combinations of sulphur with hydrogen, chlorine and iodine; on phosphorus 552
——— on carbon, and its combinations with oxygen and chlorine 583
——— on the combustion of the diamond..... 586
——— on carbonic acid, carbonate of ammonia, and the combination of carbon with chlorine and hydrogen 615
——— on carburetted hydrogen or coal gas; cyanogen and boron 648
——— on potassium, potash, nitrate of potash, and gunpowder 710
——— on the combinations of potassium with sulphur, carbon, and phosphorus; on sodium, and its combinations with chlorine 737
——— on chloride of sodium 740
——— on lithium 741
——— on calcium 743
——— on the properties of lime ..... ib.
——— on the chloride, nitrate, sulphate, phosphate, and carbonate of lime 806
——— on magnesium, magnesia, and its compounds; and on manganese 871
——— on chloride of manganese 874
——— on magnesium and its compounds; manganese and iron 901
——— on magnesia 902
——— on chloride of magnesium ..... ib.
——— on sulphate of magnesia ..... ib.
——— on carbonate of magnesia 903
——— on magnesian fossils.. ib.
——— on manganese ..... ib.
——— on muriate of manganese 904
——— on iron..... ib.
——— on the oxides, ores, and salts of iron 929
——— on the protoxide and peroxide of iron ..... ib.
——— on the native proxides of iron ..... ib.
——— on the chlorides of iron 930
——— on the protonitrate of iron ..... ib.
——— on the persulphate of iron 931

PAGE

Brande, Professor, on the salts of iron, and on the manufacture of iron and steel 932
——— on the different kinds of iron 934
Breast, malignant disease of..... 307
Bronchitis, and facts relating to continental doses of tartar emetic.... 463
Brookes, Mr. Joshua, on the use of magnesia in cases of poisoning .. 157
Brush, new, to prevent wrist-drop in painters..... 573
Buboes, syphilitic, sloughing 263
Burne, Dr., paper on retention of urine, and its consequences, in cases of adynamic or typhus fever 142
Burns', Joe, apt title for the Yellow Goth's excrescence..... 564
——— pun on Brodie 629
——— pun on Sir A. Cooper's "reptile press" 691
——— pun on Ben Travers 883
Bursa, inflamed, treated by Bobby Keate..... 326
Butter, Dr., on erysipelas..... 444

C

Cæsarian operations, by Dr. Schenk 10
Camel, palate of the 492
Cancer of the labium and nympha .. 96
——— of the mamma, cases of 95
——— of the mamma..... 576
——— of the œsophagus 638
——— of the penis..... 96
——— with paraphymosis 182
——— operation 240
——— of the pudendum 830
——— of the rectum, M. Lisfranc on 10
——— of the stomach 9
——— true, of the testicle 15
——— of the tongue, cases of.... 620, 95
Cancerous ulceration of the penis .. 937
Carbon, combinations of, with chlorine and hydrogen 617
——— and its combinations with oxygen and chlorine..... 583
——— and phosphorus, their combinations with potassium 738
Carbonate of iron, with mercury, in syphilis 539
Carbonates, native..... 741
Carcinoma, cases of 95
Carmichael, Mr., his introductory lecture 379
Cases, flooding, Dr. Blundell on.... 577
——— treatment of 581
Cataract 669
——— depression of a lenticular.. 523
Cats, Kilkenny, battle of..... 4
Cautery, actual, application of, in wounds of arteries 366
Cerebellum, abscess of..... 439, 687
Cerebrum, abscess of..... ib.
Chancre, phagedenic, of the penis .. 352

INDEX.

PAGE

Charitable Infirmary, Dublin, neglect of medical officers at 622
Chemistry, lectures on, by Professor Brande 76
——— introductory address to a course of 76
Chemical attraction, Prof. Brande on 125
Child, on the standard head of the .. 164
——— ——— ——— deviations from the ..... ib.
——— ——— ——— compression of the..... 165
——— ——— ——— causes of ib.
——— ——— ——— hydrocephalus 66
——— presentation and situation of the 166
——— on the various modes in which it is transmitted through the pelvis 201
——— ——— on the vertex presentation ..... ib.
——— ——— on the face presentation..... 204
——— ——— the forehead presentation..... ib.
——— ——— the foot or crural presentation..... ib.
——— on breech presentations 281
——— transverse presentation 284
——— means of ascertaining the position of..... 285
——— evolution, spontaneous, of the, Dr. Blundell on 284
——— arm presentation of the .... ib.
——— on peculiar presentations of 573
Children, on the weaning of..... 540
Chlorate of soda..... 740
Chlorine 375
——— effects of in phthisis..... 864
——— and hydrogen, on their combinations with carbon..... 617
——— and its combinations, Professor Brande on..... 425
——— oxide of 426
——— and oxygen, their combinations with carbon 583
Chloride of sodium 739
——— of lime, use of, in fœtid ulceration of the gums 732
——— of lime, value of, in suffocation from foul air..... 798
Chloric acid 426
Chronic enlargement of the testicle cured by mercury 13
——— ——— cases of..13, 14
Clysters, turpentine, use of, in obstinate constipation..... 538
Chyle in the veins of the jejunum .. 85
Cicatrices, division of, followed by tetanus 265
Cinchona bark, alkalies obtained from 663
Circle of the Seasons, review of 695
Circulation in insects 86
Clark, Mr. Bracy, his "expansion shoe," utility of 630, 861

PAGE

Clark, Mr. Bracy, and Mr. Coleman, doctrines of, Mr. Cherry on the .. 768
Clinical instruction at the Borough Hospitals..... 97
——— ——— at St. Thomas's Hospital 139
——— ——— remarks on..... 108
Cock-sparrow, remarks on a..... 597
——— ——— false promises of a .. 628
Cohesion, Professor Brande on 82
Clump-foot, a variety of..... 877
Colchicum, its value in pericarditis, Dr. Elliotson on 184
Cold, on the application of, in floodings 610
College of Physicians, notification of censors of the 404
College of Surgeons, returns of the, to Parliament 954
——— of Surgeons, shameful supineness of, relative to "subjects".... 228
——— ——— in London, new regulations of 695
——— ——— stammering oration at the..... 723
——— ——— hints on the elections at the 767
——— ——— ——— in Ireland, monopoly of 404
Coleman's veterinary lectures, remarks on 271
Colica pictonum, discussion on, at Westminster Medical Society 495
Combinations of nitrogen with oxygen—nitrous and nitric oxides—nitrous—nitric—and nitro-muriatic acids 458
Combustion, the simple supporters of 375
Comments on non-medical coroners, 268, 354.
——— on a coroner's inquest, and the supposed murder at Oxford .. 596
——— on the government of the Irish College of Surgeons, 465, 498, 529, 562, 625.
——— on the practice of midwifery in Ireland 658
——— on the prosecution of Mr. Cooke 17
——— on the exclusion of medical men from important state offices.. 267
——— on the defective state of clinical instruction in our hospitals 49
——— on medical education in Germany 266
——— on a Cock Sparrow's "singular variety" of hernia..... 597
——— on Brodie's case of popliteal aneurism 701
——— on Mr. Mayo's report of dissection of the temporal aneurism 689
——— on the "moral" wriggling of a bat.. 601

PAGE

Comments on what is called "unsoundness of mind" 258
——— on the conduct of Dr. Cullen, by G. W. N. 699
——— on the removal of Dr. Cullen from the surgical wards of the Royal Infirmary 532
——— on Mr. Green's prize for clinical reports 99, 101
——— on clinical instruction 108
——— on clinical instruction at Guy's Hospital 148
——— on medical reform, "regulations" of the "old bags" .. 539, 561
——— on the present state of the medical profession 721
——— on "the Pures" and "Aberdeen Dubs" 433
——— on the publication of reports of Medical Societies..... 315
——— on the scarcity of subjects in the London schools..... 228
——— on the law relative to dissections..... 915
——— by Scotus on Mr. Liston's election to the Royal Infirmary .. 770
——— on the trial of Rolfe v. Stanley, with engravings of the knee and flint..... 786, 817
——— on the correspondence of Messrs. Lofty and Gamlen 916
——— on medical reform..... 402
——— on the operation of trephining, performed by Harry Earle .. 722
——— on the conduct of the lecturers at the Veterinary College.. 627
——— on the affairs of the Veterinary College..... 883
——— on the Physicians' petition 501
——— on the character of medical controversies 595
——— by Mr. Gordon on Mr. Lyford's case of enlargement of the tongue 540
——— on the letter of a physician 99
——— on the form of the foot of the horse 572
——— on a county lunatic asylum for Middlesex 149
——— on Jemmy Johnston's literary honesty..... 849
——— on the correspondence between Dr. Forbes and Author Guthrie.....881, 913, 946
Concussion of the brain 639
Concussion of the brain, discussion on 958
Conversations on anatomy, physiology, and surgery, by Dr. Robertson, second review of..... 155
Cooke, Mr., subscription for 20, 54, 103, 150, 187, 274, 234, 369, 401.
Cooke's, Mr., letter to the subscribers 272
——— letter of matters connected with his late prosecution .. ib.

PAGE

Cooke, Mr., full list of subscribers, for paying the fine and law expenses of 327
——— attempt of further persecution of 941
Cooper, Mr. S., on the treatment of erysipelas..... 180, 351
——— reply to Mr. Lawrence..... 53
——— on the "Old Hack" of a journalist 666
Cooper's, Sir A., portrait—where is it? 109
——— explanation respecting..... 187
Compression from compound fracture of the skull 41
Cord, umbilical, on tying the, by Dr. Blundell 421
Cornea, ulcer of the 159
——— wound of..... 309
Coroners, non-medical, remarks on 268, 354
Coroner's Inquest, singular conduct of a medical man at 591
——— remarks on 596
——— ——— explanation respecting..... 630
Correspondence on the word "disdain"..... 534
——— between Dr. Forbes, Author Guthrie, and others, respecting the action against THE LANCET, Duel, &c., &c..... 839
——— notice of.. 849
——— remarks on 881, 913, 946
——— relative to the cause of Macleod v. Wakley..... 910
——— remarks on 916
Council of Health in Paris, report from 555
Coulson's, Mr., translation of Edward's Manual of Surgical Anatomy, review of 436
Cranium, fracture of the 197
——— cases of compound fracture of, with depression..... 476, 958
——— simple fracture of, without depression 478
——— compound fracture of the.. 799
——— fracture of 769
——— with compression of the thorax ..... ib.
Criticism, medical remarks on..... 942
Croton oil..... 665
Cryophorus, Dr. Wollaston's 214
Crystallisation, Professor Brande on its theory 82, 84
Cullen's, Dr., remarks on his removal from the surgical wards..... 532
Cullen, Dr., remarks on the conduct of, by G. W. N. 699
Cutaneous diseases, treatise on, by Mr. Dendy, review of 632
gen..... 650
